HOSPITALS IN MUMBAI

## After success of 21<sup>st</sup> Century HMS, 21<sup>st</sup> Century eyes global market with 21<sup>st</sup> Century e-MRD System

### The changing face of Indian healthcare industry

The healthcare industry in India is getting ready for a major shakeout. In the 90s, the banking sector went through similar shake-out. Result: customer-friendly and technology enabled process-driven banks like HDFC Bank and ICICI Bank emerged as winners. In this decade, the opening up of the insurance sector is expected to have similar impact on health insurance and healthcare industry in India.

Besides dedicated doctor and world-class medical equipment, well-designed and well maintained facilities, trained and empathetic hospital staff, on-line and accurate information and streamlined processes in the hospitals will make all the difference between the BEST and the mediocre hospitals.

### About 21<sup>st</sup> Century Health

21<sup>st</sup> Century Health Management Solutions, a Mumbai-based leading software solutions company, has pioneered "Best Practices" in Mumbai Hospitals with its software solution .... 21<sup>st</sup> Century Hospital Management Systems.

21<sup>st</sup> Century Novella HMS was first implemented at the 450 bedded Dr Balabhai Nanavati Hospital as early as 1995. Since then, 21<sup>st</sup> Century Novella HMS has become a mission critical, enterprise-wide, fully

integrated HMS in over 6 hospitals with over 1700 beds.

The 21<sup>st</sup> Century Novella HMS' strength is its architecture. From the inception, it was designed to be modular to facilitate implementation in stages. The current version of 21<sup>st</sup> Century Novella HMS has eight main modules: OPD, IPD, Stores, Financials, Lab Systems, Support Systems, HR and eMRD. It has over 18 sub-modules like Pharmacy, Kitchen, Diet, Laundry, Blood Bank, Maintenance, Duty Roster, Bed Reservation, Payroll and Personnel, etc.

### Promoters who make the difference

To appreciate the spirit of 21<sup>st</sup> Century Novella HMS, it is necessary to know its promoters. 21<sup>st</sup> Century Health is promoted by professionals with over 120 man-years experience in IT and Management Services. 21<sup>st</sup> Century Health has evolved a unique Implementation Methodology which not only stabilises the 21<sup>st</sup> Century Novella HMS very quickly but also helps to minimize mindless and endless customization.

### 21<sup>st</sup> Century e-MRD...The Future is here

21<sup>st</sup> Century Health has been working closely with some consultants and hospitals in US/UK to develop a unique web-enabled Medical Records Database System (eMRD) which can save valuable time and millions of dollars. Initial pilots of the 21<sup>st</sup> Century Novella eMRD System are in progress and expected to provide a major break-through in EMR field.
